

WE SPEAK FURNACE

Periodic Inspections (WP ZÜS)

WE WILL RELIEVE YOU!

Go on the offensive with Ipsen's periodic inspections (WP ZÜS) service! We will help relieve you and fulfill your operator duties by managing the entirety of the periodic inspections.

Scope of Activities:

- Conduct preliminary talk, inventory and agreement with authorized inspection agency (AIA) and customer
- Allocate documents, including calculations for the number of load cycles and information about the most stressed welding joints and flanges
- Exchange safety valve (every 10 years/exclusive of material)
- Perform pressure test (every 5 years)
- Execute an ultrasonic survey, including preparation of documents (every 5 years)
- Ensure inspection is supervised by the AIA (if needed)
- Determine the concept and time interval for inspection, all done in cooperation with the AIA
- Monitor the periodic inspection in a timely manner

All services for the periodic verification will be carried out by certified, skilled personnel and in accordance with existing rules and requirements.
